SENIOR TAX ANALYST

Client:

One of the world's most successful e-commerce companies. In order to strengthen the finance dept, we are now looking for a skilled professional to focus upon German corporate tax reporting and compliance at German HQ.

Location: Munich

Responsibilities:

- German direct tax compliance and reporting
- German tax accounting under US GAAP and HGB (BilMoG)
- review tax planning recommendations to determine impact on global tax provision
- review international aspects of the global tax provision
- research effects of various international transactions
- support international tax compliance and reporting aspects of growth initiatives, M&A issues etc
- support international tax controversy teams on tax audits
- drive process improvements and coordinate with Tax Technology to facilitate streamlining and automation of recurring calculations
- management of external service providers
- report to the local Tax Compliance & Reporting Manager

Requirements:

- university graduate in accounting and/or taxation
- at least 3 years' experience in direct taxation in a large public accounting firm and/or multinational corporate tax dept
- knowledge of accounting for taxes under HGB/US GAAP
- fluent in English and German
- strong project management skills
- strong tax operational background and able to drive process improvements
- experience of Oracle Financial Applications a plus
