FINANCE MANAGER

Client:

One of the world's most successful e-commerce companies. For German HQ we are now looking for an experienced finance leader to support one of the business units and assume ownership of all financial aspects of the business.

Location: Munich

Responsibilities:

- partner closely with all relevant business groups to create and support the financial and operational plans
- provide leadership, thought-partnership and support in the interaction with key stakeholders
- drive analytical support and project analysis and evaluate business proposals
- analyse and explain current and historic performance
- provide effective commercial business challenge
- lead forecasting and planning cycles
- develop efficient reporting tools to support decision-making and the delivery of goals
- monitor those goals and identify actions required to get back on track
- manage a small team of analysts

Requirements:

- university graduate in business administration or a relevant discipline
- additional MBA or similar qualification an advantage
- multiple years' relevant experience in a fast-paced environment/blue-chip company
- proven experience of commercial finance/business partnering within a complex matrix organization
- robust analytical skills and the ability to dive deep into details and work hands-on
- able to build business relationships and work collaboratively
- strong business judgement
- able to manage multiple competing priorities simultaneously
- exposure to Cognos and/or SQL an advantage
