COMMERCIAL FINANCE MANAGER

Client:

Global technology group, producing high-quality systems and solutions for the construction and mining industries. We are now looking for an astute finance professional for EMEA headquarters to add real value to this growing business.

Location: Austria-Linz

Responsibilities:

- drive accounting, controlling, production controlling, IT and order-processing
- month, quarter and year end close (HGB/IFRS)
- annual budgeting and monthly forecasts
- management of cash flow and working capital
- continuous process optimization and digitalization
- support re the development of quality assurance in production
- optimization and development of ERP systems
- liaison with external auditors, tax advisors and lawyers
- report direct to general management

Requirements:

- a high-calibre finance graduate
- several years' relevant experience, ideally in a production/technical environment
- an IFRS/HGB expert
- hands-on mentality, with integrity and social competence
- a strategic thinker, pragmatic and stress-resistant
- experienced in process optimization
- a first-class man-manager
- excellent systems (MS-Navision an advantage) skills
- fluent English
