Ref No: MM/1276

FINANCE MANAGER OPERATIONS

Client:

One of the world's most successful e-commerce companies. For the Central European region, we are now looking for a skilled finance professional to support the fast-growing supply chain and fulfillment network in Germany, Poland and Czech Republic.

Location: Munich

Responsibilities:

- business partner with Operations to drive continuous improvement in financial and operational performance
- drive strategic projects to fuel future growth
- lead the operational planning process: AOP and monthly forecasting
- prepare monthly financial summaries of business metrics and perform due diligence of month end results
- initiate enhancements and quality improvements to FP&A activities
- deal with a broad scope of tasks (business case modeling, ad hoc analysis of business drivers, productivity efficiency, expansion projects etc)
- establish strong relationships with multiple stakeholders in a matrix organization
- inspire, lead, manage and develop your team of 2 staff

Requirements:

- university graduate in business administration, finance or accounting
- additional CPA, MBA or similar qualification an advantage
- at least 7 years' relevant experience in an international environment
- experience of e-commerce, retail, manufacturing, supply chain processes a plus
- strong people management skills
- highly analytical and advanced problem solving skills
- intellectually curious with a strong bias to action
- enthusiastic and highly motivated
- excellent written and oral English and German
- basic understanding of accounting concepts (HGB/US GAAP)
