

**CAMPBELL & PARTNERS**  
EUROPEAN RECRUITMENT CONSULTANTS

**Ref:** RD/1374

## **FINANCIAL ANALYST**

### **Client:**

Global technology group, which produces high-quality systems and solutions for the mining industry. We are now looking for an astute, young professional to add real value to the business, in this role.

**Location:** Munich

### **Responsibilities:**

- support global divisions re financial data preparation, analysis and interpretation
- support month, quarter and year end closing procedures (IFRS)
- facilitate the preparation of plan data: budgets and forecasts
- maintain and develop financial systems and reports
- coordinate intercompany reconciliations
- monitor KPIs, variances to plan and extraordinary cost development
- liaise with colleagues in Group Accounting and Controlling
- report to the Group Finance Manager

### **Requirements:**

- a top-notch finance graduate
- 1-3 years' relevant experience within an international environment, preferably in a regional or global HQ team
- strong analytical and numeric skills
- excellent MS-Office knowledge, especially Excel
- familiarity with a financial reporting system eg LucaNet
- fluent in English, other major languages an advantage
- strong work ethic and interpersonal skills
- able to think strategically, solve problems and demonstrate initiative
- team-player, flexible, pro-active and able to work under minimal supervision
- good communication and presentation skills
